Train No. 207 may carry passengers between Truckee and Reno.

Light engines bound west, **when running extra,** will take siding for east-bound extras.

Water supply: Three-quarter mile east of Mystic; one-quarter mile west of Marmol.

All trains must get orders or clearance cards before leaving Truckee and Wadsworth.

All west-bound trains have absolute right of track over all east-bound trains of the same or inferior class. See Rule 384.

* Frogs at these stations taken out, part of season.

All trains will stop on signal at New Ramona.

Water Supply one mile east of Dugan; one-quarter mile east of Cummings.

Light engines bound west, **when running extra,** will take siding for east-bound extras.

All west-bound trains have absolute right of track over all east-bound trains of the same or inferior class. See Rule 384.

Exception: Train No. 263 has right of track over Train No. 264.

SPECIAL RULES.

Standard clocks are located at Sacramento (Train Dispatcher's office), Rocklin, Truckee, Wadsworth, Red Bluff and Dunsmuir.

Unless otherwise directed, trains meeting at the following stations will use the siding indicated:

At Shady Run, the long siding;
At Blue Cañon, the upper siding;
At Emigrant Gap, the lower siding;
At Summit, the middle siding.

Trains must not pass the further switch of these sidings until due to leave, except by special order or when properly protected. At points not named in this rule the customary passing track will be treated in the same manner.

When two trains meet at a siding on a grade, one train must not move until the other has passed over both switches of the passing track. In case both trains are ready to leave at the same time, the train of superior class will move first; and, in case both trains are of the same class, the west-bound train will move first.

Between Emigrant Gap and Tunnel 13, trains running in the same direction must be kept twenty minutes apart, regardless of Rules 386, 387, 388 and 389, except when the leading train consists of light engines, or when permission is given by Train Dispatcher to run closer together.

Trains must not be run from the *instant of their departure* from any station to the *instant of their arrival* at the next station in less time than given in the column headed *"Minimum running time between Stations"* for passenger and freight trains respectively.

Pusher engines, running in the middle or rear of trains, must be uncoupled from forward portion before taking water at water tanks.

At Emigrant Gap, Cisco, Cascade, Summit and Tunnel 13, semaphore lamps must be kept burning at all hours, day and night.

All trains must use at least six minutes in crossing American River trestle.

The limits of Sacramento yard extend to west end of American River trestle. The limits of Truckee yard extend from Donner Boom to Ellen Siding. The limits of Reno yard extend from west end of long siding west of Reno to Asylum switch. The limits of Marysville yard extend from Marysville station, through Binney Junction, to E Street station on Oroville line, including the "cut-off" between A Street and E Street stations. The limits of Woodland yard extend to a point 1,000 feet north of the switch at the junction of the Willows and Oroville lines. The limits of Folsom yard extend from Folsom Junction to the switch connecting with track to State Prison.

Trains must not stand on drawbridge at Knight's Landing, but must be brought to a stop entirely clear of the bridge while doing station work.

When trains are about to take siding, the forward brakeman, after opening and securing the switch, will remain with or ahead of the engine to render what service may be necessary, and the rear brakeman will close the switch. When there is not a clear view, the forward brakeman must go ahead of the engine and see that switches are properly set, and protect against trains or cars that may be on the siding.

Air brakes on all trains, and air whistle signal on passenger trains, must be tested from rear end of train at Rocklin, Colfax, Blue Cañon, Summit, Reno, Marysville, Redding, Willows, Knight's Landing and Folsom. See Air Brake Rules 69 and 77.
